 <p>Don't settle for living with Digital Eye Strain symptoms. Get protection and relief with ZEISS DuraVision BlueProtect:</p>	https://www.zeiss.com/vision-care/en_us/spectacle-lenses-from-zeiss/duravision-blueprotect.html	
<p>Do you spend a lot of time in front of digital devices? ZEISS DuraVision BlueProtect lenses are just the thing to keep their eyes protected from DigitalEyeStrain. Watch to learn more.</p>	https://www.facebook.com/zeissbettervision.us/videos/404617169730818/	
<p>Daylight contains a lot of blue light, even in winter. Studies have shown that prolonged exposure to high-energy blue light can damage the retina, increasing the risk of macular degeneration. The best protection is sunglasses with 100 % UV protection, but you can't wear them all the time. Does the light from your computer screen tire out your eyes? Learn more about ZEISS DuraVision BlueProtect here:</p>	https://www.zeiss.com/vision-care/en_us/spectacle-lenses-from-zeiss/duravision-blueprotect.html	
<p>Don't let blue light harm your eyes. Protect them with ZEISS DuraVision BlueProtect coatings. Discover their benefits:</p>	https://www.zeiss.com/vision-care/en_us/spectacle-lenses-from-zeiss/duravision-blueprotect.html	
<p>Turns out, using your digital devices or binge-watching Netflix at night leads to a lack of sleep. Luckily, ZEISS DuraVision BlueProtect lenses help filter harmful blue light so you can rest easy:</p>	https://www.zeiss.com/vision-care/en_us/spectacle-lenses-from-zeiss/duravision-blueprotect.html	

ZEISS DuraVision BlueProtect can may prevent retinal nerve cell damage by strongly filtering blue light under 440 nanometers. Learn more about this innovative coating:
